Preface

Dean

Islamic Studies Faculty, University of Muhammadiyah Malang

By giving thanks to Allah SWT, the Prospectus of Islamic Economics Department, Faculty of Islamic Studies, University of Muhammadiyah Malang can be made available to readers.

The preparation of this document aims to provide an overview related to the Islamic Economics Department to users, both the academics, communities, and stakeholders.

Some of the important points in this prospectus are the vision, mission and goals, excellent programs, achievements and recognition, curriculum composition and alumni testimonials.

In addition, in order to respond to the changes and challenges of the times, Islamic Economics Department has made changes to the collage curriculum in line with the Free Campus Learning Policy (MBKM) in order to increase the capacity, quality, competence and quality of the academic community of the Faculty of Islamic Religion in the academic and non-academic fields. With this curriculum change, it is hoped that Islamic Economics students will be able to become competent academics and be able to compete on the national and international levels.

Hopefully what is attempted will always be facilitated in achieving goals.

Dr. Khozin, M.Si

Welcome

Head of Islamic Economics Department

Islamic Studies Faculty, University of Muhammadiyah Malang

Islamic Economics Department, Islamic Studies Faculty, University of Muhammadiyah Malang, was established in 2012 based on the Decree of the Director General of Islamic Education, Ministry of Religion No. 1891 of 2012 concerning Permits to Organize Undergraduate Study Programs (S1). Aligned with the Motto of the University of Muhammadiyah Malang "From Muhammadiyah for Nation".

Islamic Economics Department has a vision to become a leading study program at the national level in 2030 in the development of economics based on Islamic values.

By producing competent Islamic economics graduates with mastery of hard-skills related to Islamic economics, on the other hand they also have soft-skill competencies such as independence, discipline and a scientific attitude in developing knowledge.

Graduate profiles from this program include becoming managers in bank and non-bank Islamic financial institutions, researchers, financial statement service providers and entrepreneurs/entrepreneurs in accordance with Islamic business ethics.
